

REPORT ON CONCRETE TEST SPECIMENS

Project _____ Contract No. _____ Report No. _____
Site _____ Structure _____
Watershed _____ Subwatershed _____
Specimens: number _____ Type of specimens: cylinder ☐ beams ☐ cores ☐ _____ in. diameter
Concrete class _____ Specification mix No. _____ Batch volume _____ yd³ Type mix: job ☐ ready ☐
Location in structure _____
Date placed _____ Date extracted (cores) _____ Date shipped _____ Prepared by _____

Field data

Job-mix materials	Batch scale weight (lb)	Additional description
Cement _____		Brand _____ ASTM type _____
Coarse aggregate _____		Maximum size _____ in. Moisture _____ % Source symbol _____
Fine aggregate _____		Fineness modulus _____ Moisture _____ % Source symbol _____
Water _____		
Admixture _____		Type _____ Brand _____
Mixing time _____ min		Remarks _____

Ready-mix materials:

Source and/or plant location _____ Load ticket No. _____

Summary of laboratory data

Field specimen No.	Slump (in.)	Air content (%)	Laboratory specimen No.	Date		Age (d)	Strength (lb/in. ²)	Type of break
				Received	Tested			

Method of curing _____ Method of capping _____
Name of laboratory _____
